Approved Cross parents must be registered with one of the following ASHDA-approved breed associations:

#### 1) Non-Draft horse breeds

- American Quarter Horse Association (AQHA):** All AQHA-registered stallions and mares that have the following or similar notation on their Certificate of Registration: "This horse has white markings designated under AQHA rules as an undesirable trait and uncharacteristic of the breed," are ineligible as an ASHDA-parent under this rule. Quarter Horses that are also registered with the American Paint Horse Association (APHA) or the Pinto Horse Association (PtHA) cannot be used as Approved Cross parents. AQHA registered stock can only be bred to LP carrying horses.
- Appaloosa Horse Club (ApHC):** All ApHC-registered stallions and mares that have the following or similar notation on their Certificate of Registration: "This horse has white markings designated under ApHC rules as an undesirable trait and uncharacteristic of the breed," are ineligible as an ASHDA-parent under this rule.
- American Knabstrupper Association (AKA):** Only Knabstrupper mares listed in the Main Mare book are eligible. Knabstrupper Stallions that have qualified for full lifetime approval with AKA may also be used.
- Stonewall Sporthorses:** Appaloosa and draft cross horses that are registered with the Stonewall Stud Book (SSB) or with the International Pattern Sport Horse Registry (IPSHR), provided the horse has a verified pedigree.
- Other warmblood breeds that express LP,** provided that the horse meets conformational standards and has a verifiable pedigree.

#### 2) Draft horse breeds.

The following draft breeds are acceptable provided the horse to be approved does not exhibit white markings in excess of the registration requirements of ASDHA. Horses exhibiting white beyond those limits are not eligible for use as Approved Cross parents.

- Percheron Horse Association of America (PHAA)**
- Clydesdale Breeders of the U.S.A. (CBUSA)**
- American Shire Horse Association (ASHA)**
- American Suffolk Horse Association (ASHA)**
- American Cream Draft Horse Association (ACDHA)**
- Canadian Shire Horse Association (CSHA)**
- Friesian Horse Association of North America (FHANA)**
- Belgian Draft Horse Corporation of America (BDHCA)**
- Any international draft breed association that is associated with one of the breeds listed above. Draft horses of breeds not listed above, or a combination of approved breeds, will be judged on a case-by-case basis.

3) All non-draft breed Approved Cross parents must be genetically tested negative for HYPP, HERDA, MH, GBED, PSSM 1. Horses with known draft lineage must also be tested for JEB1. Draft horses registered with one of the above listed associations must be tested for PSSM1 and JEB1.

4. It is the responsibility of the breeder to make certain the stallion or mare they are breeding to is eligible for Approved Cross status prior to the first breeding date. Failure to apply for, and receive, Approved Cross status prior to breeding may result in a foal which is ineligible for registration with ASHDA. Breeder assumes full responsibility for verifying that the Approved Cross horse is eligible for listing.
