Approved Cross parents must be registered with one of the following ASHDA-approved breed associations:

1) Non-Draft horse breeds

a. Appaloosa Horse Club (ApHC): All ApHC registered stallions and mares that have the following or similar notation on their Certificate of Registration: "This horse has white markings designated under ApHC rules as an undesirable trait and uncharacteristic of the breed," are ineligible as an ASHDA parent under this rule. All ApHC applicants must have at least one ApHC regular registry parent, with the other parent allowed to be registered ApHC N (non-colored), AQHA, JC, or AHA. Horses which do not have this parentage are ineligible for Approval with ASHDA.

b. Stonewall Sport Horse (SSB): All SSB registered stallions and mares applying for ASHDA Approval may only be comprised of ASHDA allowed breeds. Disallowed breeds found in the SSB include, but are not limited to: Friesian, Knabstrupper, and other Warmblood and Gaited breeds.

2) Draft horse breeds.

The following draft breeds are acceptable provided the horse to be approved does not exhibit white markings in excess of the registration requirements of ASDHA. Horses exhibiting white beyond those limits are not eligible for use as Approved Cross parents.

a. **Percheron Horse Association of America (PHAA)**

b. **Clydesdale Breeders of the U.S.A. (CBUSA)**

c. **American Shire Horse Association (ASHA)**

d. **North American Suffolk Horse Association (NASHA)**

e. Any international draft breed association that is associated with one of the breeds listed above. Draft horses that are a combination of approved breeds, or are grades of approved breeds, will be judged on a case-by-case basis.

3) All registered non-draft breed Approved Cross parents must be genetically tested negative for HYPP, HERDA, MH, GBED, PSSM1, IMM. Horses with unknown or unverified lineage must also be tested for JEB1. Draft horses registered with one of the above listed associations must be tested for PSSM1. Belgian Draft and Suffolk Punch horses must additionally be tested JEB1.

4. It is the responsibility of the breeder to make certain the stallion or mare they are breeding to is eligible for Approved Cross status prior to the first breeding date. Failure to apply for, and receive, Approved Cross status prior to breeding may result in a foal which is ineligible for registration with ASHDA as qualifications are set at the time of conception.

Breeder assumes full responsibility for verifying that the Approved Cross horse is eligible for listing and does not carry registration or lineage to any disallowed breeds such as Gypsy Vanner/Cob, Noriker, Friesian, American Cream Draft, Brabant, Paint, Spotted Draft, Drum, Tinker, Knabstrupper, Sendera, or others that are not the above allowed breeds or their own allowable component breeds.
